THE URBAN DUO

THE LARK, BOZEMAN

the inside story

The Lark is downtown Bozeman's newest urban retreat and perfect for the city staymoorers. Originally built in the 1960s, the Streamline-era architecture features an open-air design, outdoor fire pit, and wide balconies to showcase everything downtown has to offer for the couple looking to experience the best of Bozeman. The Lark is your ideal location. The staff at The Lark are trained to serve as "basecamp guides" for all you are looking to experience. Their curated list of local dining and activities will give you the inside scoop on all the best local hangouts and attractions. Check them out online to learn more: www.larkbozeman.com

the lodging

The Lark has 38 newly renovated rooms on property, thoughtfully crafted with leather, metal and wood—all from local suppliers and craftsmen. The graphic art pieces individually installed in each room are created by local artists, meant to inspire your stay through their passions. Each room comes with a 32-inch HD flat-screen TV, complimentary wifi, MALIN+GOETZ products, and cozy Lark robes. We recommend The Lark's King Room, complete with a king-size bed, a desk and their signature three-piece bathroom with walk-in tile shower – everything honeymooners need to have an urban getaway.

the perks

Created with the modern guest in mind, The Lark has thought of everything to make you not want to leave! Start your day in The Lark's lobby - sip on their selection of teas and coffees while reading the Bozeman Daily Chronicle. Spend the afternoon exploring Bozeman and head back to The Lark's on-site food truck, Victory Tacos, to experience their take on fresh, fusion and traditional tacos. After a delicious midday meal, take a cat nap or hit the city for more exploring! The Lark provides each guest with their Field Journal to take note of all the finds, places, and faces you discover during your stay. For the new Mr. and Mrs., it's the perfect way to document their city escape at The Lark.
